## ENTERPRISE INTRODUCTION

01

### Introduction to Shijiazhuang Jiukai Engine Valve Manufacture Co.,Ltd

established in 1998, is a professional manufacturer specializing in the production of automotive valves and internal combustion engine intake and exhaust valves. Over the past 27 years, the factory has expanded significantly, now covering an area of 20,600 square meters. With a workforce of 78 skilled employees and 110 advanced pieces of equipment, including 17 specialized testing machines, the factory ensures that every valve produced undergoes rigorous quality inspection. A dedicated team of 6-8 professionals is responsible for quality control, guaranteeing the highest standards for every product.

### Product Advantages and Capabilities

Our factory offers a wide range of valve products that cater to various vehicle models. We provide customized manufacturing services based on customer-provided designs and samples, with flexible Minimum Order Quantities (MOQ) and rapid development capabilities. With over 27 years of industry experience, we have developed more than 3,000 SKUs and OEM products, maintaining a substantial inventory of over 500,000 pieces ready for immediate shipment. This ensures prompt delivery and exceptional service to our clients.

## WHY CHOOSE US

02

27 Years

More than 27+ years of production experience

Shipping

Leading time: 3-20 days by air/sea/express

OEM/ODM

Manufacturing Services According to Samples

3000+

More than 3000+ can be supplied

5 million

More than 5 million valves in stock

Models

Valves Cover a Wide Range of Vehicle Models

Packing

Whit Boxes & color Boxes Customized buyer Brand

MOQ

Customizable Solutions with Flexible MOQ

### Engine Valves for various applications

## CERTIFICATE OF QUALIFICATION

**Certified by**  
SGS、ISO9001:2000、IATF16949

Producing Valves: 1 Million/Year

Small Orders Shipped in 48 Hours.

## PRODUCT PACKAGING

### Neutral Boxes

We can supply neutral boxes without any printing. However, a model sticker will be applied to each neutral box. There are two types of neutral boxes: one contains a single item per box, while the other holds a complete set of products. For example, a intake valves set consists of 8 pieces, so all 8 valves will be placed in one box, as shown in the picture.

### Color Boxes

Don't worry if you don't want any branding on your packaging. We offer "Color Neutral Boxes" as a great alternative. These are plain gray boxes with absolutely no writing, functioning the same as our standard neutral boxes. They are also available in both single-item and complete-set styles.

### Fully Customized

We offer fully custom-branded packaging to elevate your brand. Beyond standard neutral boxes, we create exclusive designs featuring your logo and identity. We manage the entire process—from structural design to material selection and printing—delivering packaging that ensures product safety while enhancing the unboxing experience and strengthening your market presence.

Our partner supplied

Valve guide

Valve shim

Valve lifter

Valve seat

## Valve Shim

- High temperature resistant sealing technology
- Accurate adaptability
- Long term stability
- Worry free after-sales support

## Valve Guide

- High Temperature
- Abrasion Resistance
- Precise guidance
- Wide adaptability

## Valve Seat

- High temperature resistance
- High impact resistance
- Wide range of models

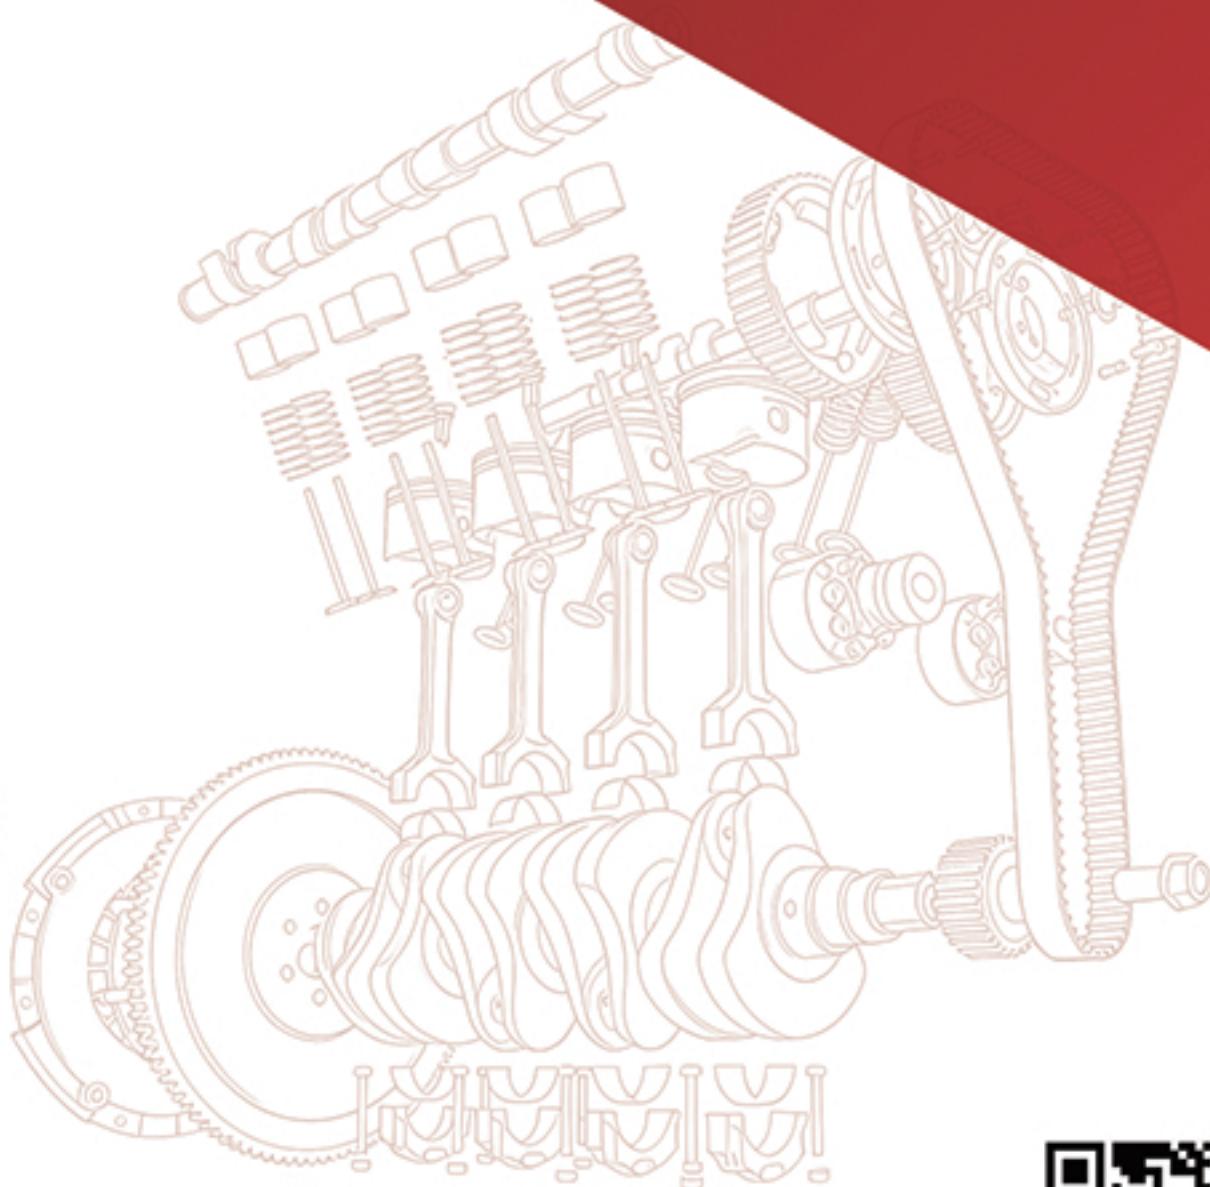

## Valve Lifter

- High accuracy and durability
- Covering multi-brand models
- Hydraulic
- Mechanical Dual Stock
